

The Valla 20D pick & carry crane has a safe working load of 2t and is powered by a low-emission diesel engine. As a tracked crane it is ideal for operation across rough terrain or low load bearing surfaces.

The Valla 20D TRX is just 950mm wide, so is also an excellent crane for lifting in confined spaces, for example on congested construction sites, where it can be used for steel erection, curtain wall installation or glazing.

2,000kg Max Lifting Capacity

CPCS - A66 Compact Crane (B)

Technical Specifications

Max Lifting Capacity	2,000kg
Max Working Height	4.0m
Max Working Radius	2.6m
Capacity @ Max Height	800kg
Capacity @ Max Radius	400kg
Power Source	Diesel
Height	1760mm
Length	2400mm
Width	950mm
Total Machine Weight	2,100kg (E)/1,900kg (D)
